Vital Statistics Show an Alarming increase in an Already Prevailing Disease-Are Any Exempt?

At no time in the history of disease has there been such an alarming increase in the number of cases of any particular malady as in that of kidney and bladder

maledy as in that of kidney and bladder troubles now preying upon the people of this country.

To-day we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of treir serious illness or sudden death, caused by that fatal type of kidney trouble-Bright's disease.

Kidney trouble often becomes advanced into acute stages before the afflicted is aware of its presence; that is why we read of so many sudden deaths of prominent business and professional men, physicians

business and professional men, physicians and others. They have neglected to stop the leak in time.

While scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the chances of contracting dreaded and dangerous kidney trouble, or eradicate it completely from their system, if already afflicted, Many precious lives might have been and many more can yet be saved by paying attention to the kidneys.

It is the mission of The Times to ben-

With the sample bottle of Swamp-Root will also be sent free

All day Monday Miss Hildebrecht followed McCallam about the Oranges. He was employed as an cutside man by the Essex and Hudson Gas Company, and had occasion to visit houses and business places in all the Oranges. Riding her bicycle, she followed him from place to place, stopping to wait for him wherever he stayed. Yesterday morning she rode to the gas office and paid her bill. In the office she saw McCallam and went over to speak to him. Before that she had visited his boarding place and seen

Mrs. S. D. Philpot, who lives there, to whom she told her story. At the gas office, so clerks say, she told McCallam she wanted an umbrella he had, and he, after receiving permission to leave the office, went to the boarding place. He went in by the back door, while she waited outside, but soon after he entered the house she rang the bell. Mrs. Philpot, besides knowing the girl's story, had seen her frequently, as the pair were supposed to be engaged, and admitted her to the house. In a few minutes Mrs. Philpot was sum-moned by McCallam, who shouted, "Please send for a policeman!"

As Mrs. Philpot ran into the hall she saw the couple standing on the stairs. Miss Hildebrecht was pointing her finger tt McCallam. Mrs. Philpot says she saw no weapon, but in a second there was a distol shot, and Miss Hildebrecht dropped a revolver on the stairs and walked out of the house.
